On the 2nd Sentence:

Later in the Plan, we state: More than 300 PMN or SNUN submissions for PFAS substances have been reviewed by the EPA since the beginning of the PFOA Stewardship Program, of which about 200 were regulated by the EPA, typically under a section 5(e) Order.

Deliberative Process / Ex. 5

Timeline Background, FYI:

2000 was the beginning of PFOS phaseout by 3M which triggered new PMN submissions. New PMNs significantly ramped up in 2006 with launch of PFOA Stewardship Program.
